

**ECHO COTTAGE
WATCH
SERVICES LIMITED**

Echo Cottage Watch Services Limited

Is a professional property watch service designed to bring peace of mind to cottage and homeowners when they are absent from their cottage or home for weeks, months or for the entire winter season.

Our property watch service performs scheduled inspections of unoccupied or vacant properties while the owner is away.

Should we find an issue or potential problem, we will immediately notify the homeowner. Echo Cottage Watch Services is a line of communication between property and property owner, providing peace of mind during their absence.

Why are property checks important?

Regular professional visits to properties:

- Provide property owners peace of mind after a storm or severe weather incident.
- Allow the property owner to take action if an issue is found before it gets worse.
- May be required by insurance providers (please check your policy).
- Can help to deter break-ins, theft and vandalism.

In an effort to provide accountability to our clients who use our property check services, Echo Cottage Watch Services has invested in the QRIDit Home Watch software, this software allows clients to view reports whenever and where ever they are. The system provides proof of visits by using QR Code Technology, Geo-fencing, Cellular Technology, the Internet and Cloud Computing. The system guarantees that reports can only be made if a property visit has been completed.

More information on this system can be found at:

Who is Echo Cottage Watch Services Limited?

Echo Cottage Watch Services Limited is a locally owned and operated business with our headquarters in Fort Qu'Appelle. Founded in 2022, our goal is to provide reliable professional property watch services always tailored to the needs of our clients.

Property-watch services:

- Property checks (exterior and interior) at intervals decided by the property owner (i.e. twice weekly, weekly, bi-weekly or monthly)
- Key holding Services (for property owners and realtors).
- Alarm Response Services.
- Concierge services.

Other services:

- Roof snow removal.
- Snow clearing (for residential properties - walkways).
- Eaves trough cleaning.
- Handyman and small repair work.
- Seasonal services such as fall and spring yard maintenance (leaf collection and removal).

Our services are available to property owners, housing associations, villages and towns and business owners.

For more information we can be reached at info.echowatch@gmail.com or by calling 639 684 0170 and leaving a message which include your name, number you can be called on and best time to call.
