7.2 Spring Runoff Damages

The Board spent a significant amount of time reviewing a summary prepared by L. Bedel of the damage to property caused by the rapid spring melt and possible failure of existing drainage infrastructure to handle increased water flows.

The areas of concern are Farmer's Hill, properties immediately west of the West Recycling Bins, the west boat launch, Valley View service road and properties east and west of #729

The Board agreed the immediate response to the Farmer's Hill area should be a priority for RM crews. Then a targeted approach to consult, tender and award contracts for the remediation of these five areas to be set in motion.
